

This is not a good idea for the US dollar. This will devalue the US dollar. The last thing we need is this. What we need to do is to just make sure that the currency brokers are operating in a fair manner under the current regulations. To do anything else will send a message to the entire world that we do not have a stable US currency. This will take us under! Fast. The problem is not the current market leverage. It's the shady currency brokers, not the potential profits or losses. The Madoff scam is a whole total different ball game; he just straight knowingly cheated people. Please keep it as is, our survival as a country depends on it.
