Hello,

I participate in a systematic quarterly rebalancing plan that is powered by leveraged ETFs. I know what I am doing. The proper use of these leveraged products is a key part of my financial plan.

I am not engaged in reckless trading, I understand the effect of daily magnification of an index's price movement, and I use this magnification to my advantage.

I do not want a third party evaluating my capability of managing these funds, and certainly do not want one preventing me from buying them altogether.

If leveraged funds are restricted to accredited or wealthy investors only, the wealth gap in the country will increase as the rich get richer in sophisticated products while everybody else languishes in plain old index funds.

Please keep leveraged funds available to all investors.

Thank you,  
Armando Plata
