Hello,

Please do not restrict the leveraged funds, these funds are important to me. They improve my performance over the long term. I am not engaged in reckless trading, I understand the effect of daily magnification of an index's price movement, and I use this magnification to my advantage. I am fine with the volatility, infact that is precisely why I invest in them. I put the volatility to work for me. Please do not change anything.

Thank you,  
Elizabeth
