I run a quarterly rebalancing plan that is powered by leveraged ETFs. I know what I am doing. The proper use of these leveraged products is a key part of my financial plan.

These funds are important to me. They improve my performance over the long term. I am not engaged in reckless trading, I understand the effect of daily magnification of an index's price movement, and I use this magnification to my advantage.

I don't want a 3rd party evaluating my capability of managing these funds, and certainly do not want one preventing me from buying them.

Please keep leveraged funds available to all investors.
