Subject: Rule #22-08
Date: Monday, May 2, 2022 10:07:18 AM

WARNING: External Sender! Exercise caution with links, attachments and requests for login information.

Freedom to choose investments is critical to a free society and a healthy growing economy. Placing impediments on capital markets will dampen innovation at a time when we are facing challenges like never before from outside the US. if this is allowed, history will record that this type of bureaucracy ended our leadership in capital markets and development.
