I a systematic plan that is powered by leveraged ETFs. I am experienced and know what I am doing. The proper use of these leveraged products is a key part of my financial plan. I have used it responsibly and It has worked out well for me.

These funds are very important to me. They improve my performance over the long term. I am not and I have never engaged in reckless trading. I do not want a third party evaluating or preventing my capability of managing these funds.

Please keep leveraged funds available to all investors.
