Hello,

I have heard that leveraged ETFs may be restricted to certain people  
My investment strategy is powered by leveraged ETFs. I know what I am doing.

These funds are critical to my process.

I do not want a third party evaluating my capability of using these funds, and certainly do not want one preventing me from buying them.

Why should only the rich have access to sophisticated investment products?

If leveraged funds are restricted to accredited or wealthy investors only, the rich get richer in sophisticated products while everyone else is limited to regular old index funds.

Please keep leveraged funds available to all investors.

Thanks,
