I hereby register my disinterest in the proposed plans of regulators to determine who and how the public invest. This is a complete disregard to freedom and I call on all authorities involve to bring such plans to a halt!

This purported plan will not only dissuade people from growing in their investment journey but may cause undue suspicion for the regulators, thinking they have hidden agenda.

Please, reconsider your stand and make U-turn as this will mean well for all and sundry.
Thank you.

Best regards,
Solomon.
