Hi,

My name is Valeria Acosta, and I'm submitting a public comment on the proposed FINRA rule regarding complex investment products.

I believe this rule is a good step toward protecting everyday investors by improving training and oversight. However, I recommend that FINRA clearly define what qualifies as a "complex investment" to avoid confusion and ensure that beneficial investment products remain accessible.

Thank you for the opportunity to comment.

Sincerely,
Valeria Acosta
(Student at the University of Illinois)
